

Notes:

1. Provide two 100mm x 100mm (4" x 4") deep boxes, one for power and one for comm. Install two 38mm (1 1/2") conduits between boxes and floor.
2. See 1842 EEG/EEISG sketch SK 86-1
3. The Articulated Arm will be mounted in lieu of DBRITE Track at locations receiving the DoD Advanced System (DAAS), also known as STARS.
4. Drawing is meant as an example and can be modified as the design requires.
